

National Dental Cost Containment Program

Coalition America, Inc. (CAI) has a long and successful history of reducing medical costs for medical claim payors. Using a suite of products and services, CAI has established a strong reputation as a leader in medical claim savings, impacting both high and low dollar claims.

Using that technology and experience, CAI has developed a national program that allows access to savings on dental claims in a traditional indemnity plan, or for those claims that fall outside your primary dental PPO.

This national dental cost containment program currently offers access in 49 states, with an average savings of 10%-45%, depending on the state and the specialty.

The program is simple and easy to implement, allowing you to generate savings immediately!
