

Acclamation Systems, Inc. Renews Partnership with Coalition America to Offer State-of-the Art Repricing Solution

Atlanta, GA, October 29, 2007... Acclamation Systems, Inc. (ASI), a leading provider of automated benefits management software for the healthcare industry has renewed its partnership with Coalition America, Inc. (CAI) to offer a state-of-the-art repricing and adjudication solution for its clients. Also, ASI is developing enhancements to its software to allow clients to electronically transmit in-network and out-of-network medical bills to CAI for repricing. The process can occur on either a pre- or post-adjudication basis to meet varying client needs.

“We welcome the opportunity associated with forming a strategic business partnership with Coalition America, Inc.” said Jim Senge, CEO, Acclamation Systems, Inc. “With the cost of healthcare continuing to rise, employers are desperately looking for ways to minimize their healthcare costs. Benefit administrators are continually looking for ways to streamline their operation and maximize their auto-adjudication process. This partnership with Coalition America, Inc. will help benefit administrators and employers achieve these goals,” said Senge.

“We are very excited to work with ASI to provide leading edge services to clients utilizing the LuminX system” said Scott Smith, President, Coalition America, Inc. “This solution dramatically improves the repricing and adjudication process for payors by eliminating many of the current manual processes involved with sending claims for repricing, while also allowing them to discount more claims faster. The result is greater efficiencies making them more competitive in the market” said Smith.

About ASI

Acclamation Systems, Inc. delivers integrated, flexible technology solutions for employee benefits management. Since its inception in 1989, ASI continues to provide some of the world's largest insurance carriers, third party administrators and self-administered organizations with the most comprehensive, powerful benefits administration system on the market today. ASI's flagship product, LuminX, is an end-to-end, automated system designed for organizations entrusted with the responsibility of administering health and other employee benefits. To complement the LuminX system, ASI offers robust Web tools, including online eligibility and enrollment, and comprehensive reporting; full accounting capabilities; integrated technologies; and outsourcing services to enhance their clients' productivity and profitability. About CAI

Coalition America, Inc. (CAI) is a market leader providing a comprehensive solution to managing healthcare costs. CAI has developed a seamless process for integrating Carrier Level Cost Containment including fraud detection services, claim editing, Carrier PPO access, chronic disease and utilization management services, and out-of-network/non-participating provider cost control services. This integrated approach to cost containment has a greater impact on the overall management of benefits costs and will help to control the annual rate of increase in healthcare spending. The Atlanta-based healthcare savings company directly services over 250 clients representing more than 12,000 businesses nationwide. CAI has saved its clients over \$1 billion since inception.
