

## **Self Insured Services Company (SISCO) Connects to Coalition America through Acclamation Systems' Innovative EDI Solution**

**Atlanta, GA, September 25, 2005...** SISCO, a leading third party administrator has connected to Coalition America, Inc. (CAI) via Acclamation System, Inc.'s (ASI) streamlined EDI connectivity solution for LuminX users. The new enhancement allows LuminX clients to electronically transmit in-network and out-of-network medical bills to CAI for repricing. The bills are quickly returned electronically to the client for auto-adjudication. The process can occur on either a *pre- or post-adjudication* basis. The solution is *free* to LuminX customers.

“We are very pleased with the impact of this system enhancement,” said Dick Sigwarth, Director of Operations, Privacy Officer, Cottingham & Butler / SISCO, Employee Benefits Division. “We streamlined our operations by significantly reducing the manual processes associated with repricing out-of-network claims. The result is greater savings for our clients and lower administrative costs for our organization” said Sigwarth.

“Our state-of-the-art EDI solution enables LuminX clients to improve their administrative processes and overall profitability,” said Jim Senge, CEO, Acclamation Systems, Inc. “With healthcare costs continuing to rise, benefit administrators must continue to streamline their operation and maximize their auto-adjudication process. Our partnership with Coalition America will help both benefit administrators and employers achieve these goals” said Senge.
